The leading research Hospital in Spain

Mediktor is a validated professional medical assistant

This is What Our Clients Say

"Our team was impressed with Mediktor's technology, and its successful application in a range of settings across the globe"

Dr. Peter Schulam
Head of Yale New Haven Health Innovation

YaleNewHavenHealth

"We have already collaborated for the first clinical study of Mediktor's technology, which led to promising results and remarkable evaluation from our medical partners"

Dr. Josep M. Campistol. CEO
Hospital Clínic de Barcelona

CLÍNIC
BARCELONA
Hospital Universitari

"Mediktor's symptoms checker is one of the main features of our Digital Doctor service: a 24h online consultation through chat, videoconference or call. 70% of the clients accessing our app choose using the symptoms checker which gives them an orientation on what they may have. Results are available to doctors during the consultation which leads to more efficient online visits"

Elena Torrente. Digital health coordinator
DKV Spain (MUNICH RE GROUP)

Munich RE

"Telemedicine is revolutionizing the world of Healthcare. TopDoctors users access the symptom checker developed by Mediktor and after answering a few simple questions they find the expert doctor they need according to their result"

Alberto E. Porciani. President and CEO
Top Doctors Europe & Latam

TOPDOCTORS®

"SAVIA is the digital health services platform of MAPFRE, the Spanish insurance leader. Thanks to Mediktor, SAVIA can offer its users medical guidance in less than 3 minutes, saving them time from the first moment they feel symptoms. And also recommends chatting with the most appropriate specialist within the network of professionals available at the platform"

Pedro Diaz Yuste. Chief Executive Officer
SAVIA (MAPFRE)

MAPFRE

We have never lost a client

Flexible and Proved Value Proposition for Big Markets

Insurance Companies

Mediktor enables the reduction of provision costs, avoiding unnecessary and costly medical visits. Streamlining triage, improving decision-making and decreasing wait times.

Hospitals

Mediktor allows the reduction of wait times in the emergency departments, avoiding medical errors and preventing unnecessary diagnostic tests and treatments.

Pharmaceutical industry

Mediktor helps increasing sales and improve the experience of purchase, directing the customers from symptoms to online purchase.

Telemedicine platforms

Mediktor drives patients to the right level of care and can shortlist the related medical speciality. Decreases the professional time needed to assist patients.
